By deposition of the file [300042.cif] through "**already published data**" the following statement was received:

The file [300042.cif] contains at least some structures that were previously deposited to the COD as entries 3000482.

Only the notice above appears when addressing cod file 3000482 and not the altered file introduced through "**already published data**"

(Remark: A wrong number 300042 was introduced in the manuscript.)

In the published manuscript the following statement is published:

"(Crystallography Open Database) COD 300042, 300483, 300484 contains the supplementary crystallographic data for this paper."
